

**DECLARATION “IV”**  
**Technical and Protection Information in Respect of**  
**Consignments of Group 2 Radioactive Substances**  
**on Vessels Transiting SC**  
**(Page 1)**

(All items must be completed. If any of the items in this statement is not applicable, the letters “N.A.” should be inserted).

Name of vessel : ..... Nationality : .....  
Master’s Name : .....  
Port of entry : ..... Date of transit : .....  
Port of loading : ..... Port of destination : .....

(1) Regulations according to which the packing is prepared for transportation.

(2) Appropriate information related to the radioactive material:

- a) Material and group .....
- b) Activity in M.C. per package .....
- c) Physical and chemical state .....
- d) Max. temp. at the surface of the package during transport .....
- e) Encapsulated state (1).

(3) Required information on packages characteristics. (Similar packages with same contents should be mentioned together with indication of their marks and serial numbers):

- a) Marks and serial number .....
- b) Type of packing .....
- c) Packing category .....
- d) Dimensions in cm (indicate whether it is large radioactive source).
- e) Weight .....

(1) If encapsulated state, indicate date and competent authority which approved the encapsulation.

**DECLARATION “IV”**

**(Page 3)**

- (4) Radiation level in mr equivalent per hr. at:
  - a) External surface .....
  - b) One meter from external surface .....
  - c) Two meters from full load .....
- (5) Precautions required on a routine basis.
- (6) Precautions to be taken in case of accident.
- (7) Number, date and competent Authority issuing the packing certificate.
- (8) Stowage conditions of packages (where and how).
- (9) Depth of screening by other cargo.
- (10) Statement of presence of:
  - a) External materials.
  - b) Inflammable materials.
  - c) Spontaneously inflammable materials.
  - d) Corrosive materials.
  - e) Oxidizing materials.
  - f) Compressed gases.
  - g) Liquefied gases.
  - h) Any other materials.

**N.B.:** For large radioactive sources, only items from 1 to 8 should be filled and forwarded to the Suez Canal Authority before the vessel leaves her port of loading.

**DECLARATION “IV”**

**(Page 4)**

(11) The following certificate must be signed by the technical person responsible for these shipments and recognized by the Master of vessel on behalf of the ship owner:

“We the undersigned certify that the information given in 1 to 11 is surely correct and that the packing of radioactive materials and marking and labeling on the packages are in accordance with”.
